

Important Advice

The room climate ideally should be 18-20 °C (64-68 °F) at 50-60 % RH, this way excessive gapping (back drying) can be avoided.

Dust and loose dirt can be removed drily using a soft cloth, a suitable broom or vacuum cleaner. Do avoid scratches by removing the dirt regularly and gently as well as by using felt pads under the furniture or suitable chair castors.

Please take into account that when cleaning the hardwood floor with liquids the cleaning cloth should be not more than fog-damp. Too much water results in unnecessary swelling of the wood, and if you “water” your floor repeatedly it may get damaged.

How often the floor needs to be cleaned essentially depends on its use. The table below shall be a guideline:

Traffic exposure	Moderate	Medium	Heavy
Full care	1 x	1 x	1 x
Routine cleaning, dry	every day or as needed	every day or as needed	every day
Routine cleaning, fog-damp	8-14 days	2-4 days	every day
Maintenance care	2-3 x p.a.	4-6 x p.a.	8-12 x p.a.
Basic cleaning	1 x p.a.	2 x p.a.	4 x p.a.

Depending on the actual use of the hardwood floor you will have to deviate from the intervals listed.

Product Overview

BRILLIANCE EVERCLEAR Maintenance emulsion for sealed wood floors. Available in matt or gloss; can be applied undiluted or diluted.

BRILLIANCE AQUAOILCARE Oil-based maintenance emulsion for impregnated/oiled wood surfaces. Provides a natural matte appearance without the need for polishing. Usable undiluted or diluted.

BRILLIANCE AQUASATINPOLISH Wax-based maintenance emulsion for impregnated/oiled wood surfaces. Achieves a satin finish and can be polished if desired. Usable undiluted or diluted.

BRILLIANCE NEUTRALCLEANER Universal cleaner for all floors. Used diluted and removes everyday dirt with ease.

BRILLIANCE BIOSOAP Wood floor soap made from renewable raw materials. Suitable for routine and deep cleaning of oiled or waxed wooden floors. Slightly re-oiling effect. Used diluted.

BRILLIANCE CLEANER L94 Deep cleaner for sealed parquet and wood floors. Removes old maintenance layers; can be used undiluted or diluted.

BRILLIANCE OILCARE Care oil for refreshing after deep cleaning or in heavily used areas.

BRILLIANCE BIOCLEAN Fragrance-free, allergy-friendly cleaning concentrate. Ideal for daily cleaning; suitable for manual and machine applications, including cleaning robots.

BRILLIANCE SPRAYMOP COMFORTCLEAN Ergonomic spray system for mist-damp cleaning – ideal for daily use.

BRILLIANCE EVERCLEAR APPLICATOR Classic application tool for uniform and controlled application of maintenance products. A proven professional solution.

Maintenance & Care instruction

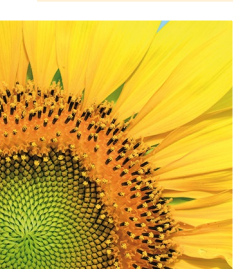

Beautiful Hardwood Floors
of Lasting Value!

The Matching Care System

Berger-Seidle®

...wood floors deserve the best!

Congratulations!

We congratulate you on your decision to acquire a premium-quality hardwood floor which has been laid with maximum care by floor professionals you trust using high-class products made by Berger-Seidle. Having chosen this floor coating you now stand on a floor that offers a maximum of quality and ecology.

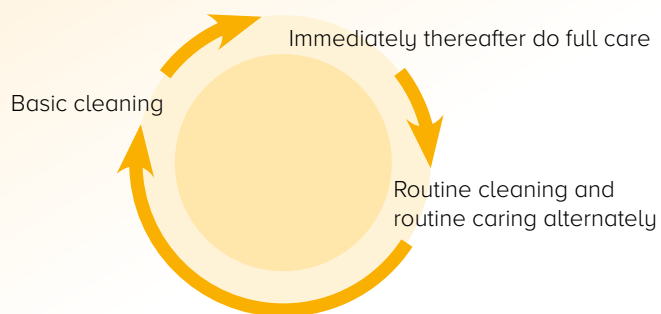

The exactly done care is very important!

Conserve the value and the beauty of your new hardwood floor by correct care and follow this simple care/maintenance instruction. The products mentioned here are exactly harmonized with your floors and meet the highest state-of-the art requirements. Their use is simple.

We wish you a lot of joy with your hardwood floor for a long time!

In order to make this happen, please pay attention to the following instructions for the cleaning and caring for your wooden floor. In case you have questions about the individual product or their use please contact your floor professional. He will know your floor and be able to give you optimal advice. He will be able to supply you with the care and cleaning products needed, too.

The Care Cycle in Overview

This Overview Shows You which Cleaning and Care Products You will Need

Kind of surface	Lacquered hardwood floor	Impregnated/oiled/waxed hardwood floor
Initial and full care Is done after the floor coating has dried, after about 8-14 days, but always before the first intensive use  Quantity needed	EVERCLEAR / FITPOLISH* Apply undiluted  30-40 ml/m ² (250-340 ft ² /US fl qt)	AQUASATINPOLISH // OILCARE / FITPOLISH* AQUAOILCARE Apply undiluted  30-40 ml/m ² (250-340 ft ² /US fl qt) // 5-20 ml/m ² (500-2000 ft ² /US fl qt)
Routine cleaning The dirt is removed. The cleaning product is added to the mopping water. Mop the floor fog-damp!  Quantity needed	NEUTRALCLEANER / BIOCLEAN** CLEANER L94 Diluted  100ml / 10l water	NEUTRALCLEANER // BIOSOAP / BIOCLEAN** Diluted  100ml / 10l water // 100ml / 10l water
Routine care The care film is replenished. The care agent is added to the mopping water. Mop the floor fog-damp!  Quantity needed	EVERCLEAR / FITPOLISH* Diluted  300ml / 10l water	AQUASATINPOLISH // AQUAOILCARE / FITPOLISH* Diluted  300ml / 10l water
Grundreinigung The dirty care film is removed. Apply the mixture, let it react, remove the partially dissolved care film.  Quantity needed	CLEANER L94 Diluted  1l / 1l water 150-200ml/m ²	BIOSOAP Diluted  1l / 4l water 150-200ml/m ²
